

INTERIOR LIGHTING

- ● ● ● ● Pannelli Led Grandi Dimensioni Bianco & RGB
- ● ● ● ● Led Panel Big Sizes White & Rgb

MetacriLED

METACRILED

E' un sistema d'illuminazione su schermo in PMMA (metacrilato) che offre possibilità di personalizzarne dimensioni, forme dei pannelli e colorazione dei LED.

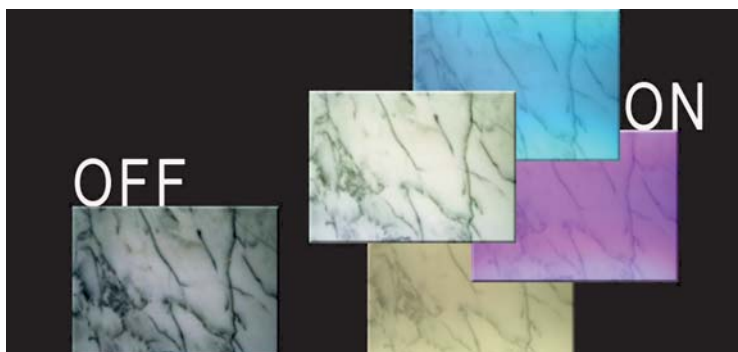

It is a Lighting System on the PMMA screen (methacrylate) which offers customers the possibilities to customize sizes, panel shapes and LEDs colors.

CARATTERISTICHE/FEATURES:

- Pannello in PMMA con tecnologia LED/PMMA panels with LED technology
- Sistema professionale per illuminazione/retroilluminazione realizzato con pannelli luminosi ultrasottili. Professional system for lighting/back-lighting made of ultra-thin light panels
- Spessore ridotto/Small Thickness
- Alta resa luminosa/High light quality
- Consumo minimo/Minimum consumption
- Possibilità di accostare più pannelli tra loro grazie alla loro medesima intensità luminosa che emanano, in modo da avere uniformità su tutta l'area. Possibility to pull together several panels thanks to the same light intensity in order to have uniformity overall the area.

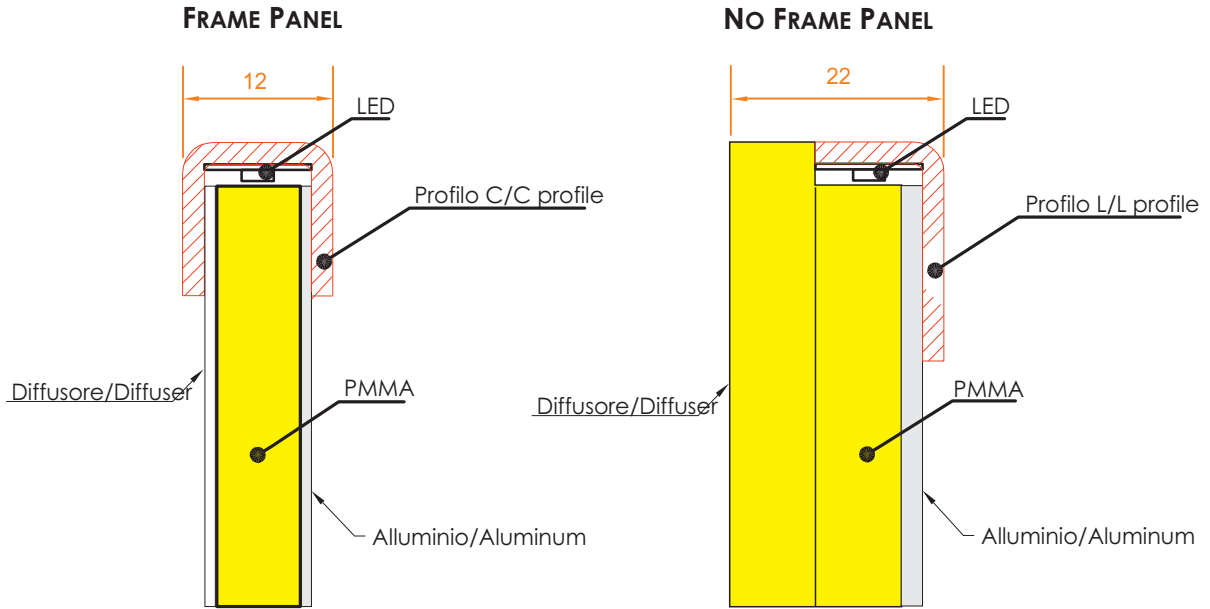

CARATTERISTICHE TECNICHE/TECHNICAL DETAILS

| MetacriLED | Pannello in PMMA con tecnologia LED/ PMMA panel with LEDs technology |
|---|--|
| SORGENTE LUMINOSA/LIGHT SOURCE | LED |
| DIMENSIONI MAX STANDARD DI LAVORAZIONE/ MAXIMUM STANDARD SIZES WORKING | 1000x3000 mm |
| LUMINOSITÀ/BRIGHTNESS | 6500/9500 Lux |
| CONSUMO/MQ (LED BIANCHI) CONSUMPTION/SQ (WHITE LEDs) | 40/80 Watt mq 40/80 Watt sq |
| CONSUMO/MQ (LED RGB) CONSUMPTION/SQ.MT (LEDs RGB) | 30/60 Watt mq 30/60 Watt sq |
| ALIMENTAZIONE STANDARD/STANDARD POWER | 24V DC |
| SPESORE TOTALE (CORNICE IN ALLUMINIO) TOTAL THICKNESS (ALUMINUM FRAME) | da 12 a 22 mm in funzione della tipologia richiesta/ from 12 to 22 mm (depend on the type of request) |
| TEMPERATURA OPERATIVA/OPERATING TEMPERATURE | -15° +75° |
